

# EREN TIN

## Full-stack Developer

+90 (537) 824 19 45 | ✉ erentin@outlook.com | [🌐 linkedin.com/in/erentin](https://www.linkedin.com/in/erentin) | Istanbul, Turkey, 34480

### SUMMARY

---

Full Stack Developer with experience in **JavaScript (React, React Native, Node.js)**, **PHP (Laravel)**, and **cloud solutions (AWS, Azure)**. Skilled in building scalable **web & mobile applications**, designing **REST APIs**, and delivering projects end-to-end with attention to detail and strong problem-solving skills.

### SKILLS

---

- JavaScript (React, React Native, Next.js, Node.js), PHP (Laravel, Livewire), TypeScript, Python (Flask), Web Design (HTML, CSS, Tailwind) SQL (MySQL, PostgreSQL), NoSQL (MongoDB, Redis), Docker, Git
- Mobile & Web App Development, Backend & API Development, Microservices, Cloud (AWS, Azure), Authentication & Security, CI/CD, Agile/Scrum, Jira, Trello
- Project Management, Problem-Solving, Attention to Detail, Strong Communication, Organizational Skills

### WORK EXPERIENCE

---

#### Cozmopol: Full-Stack Developer

10/2024 – Present

- Built interactive 3D shopping experiences with React.js & Three.js, improving user engagement and time on platform.
- Developed scalable Node.js + MongoDB APIs, ensuring high-performance data processing for thousands of concurrent users.
- Implemented real-time communication systems with WebSocket & Socket.IO, reducing latency in multi-user interactions.

#### Ferisoft: Full-Stack Developer

11/2023 – 09/2024

- Led **live vehicle auction system** and automated bidding bots, processing thousands of price quotations in real time.
- Delivered **FinTech solutions** by developing secure backend workflows and dashboards, improving transaction reliability.
- Managed projects independently, improving delivery efficiency and establishing strong full-stack expertise.

#### Ketencek I.T.: Junior Back-end Developer

10/2022 – 11/2023

- Developed backend features for **B2B platforms using Laravel**, enhancing system performance and reliability.
- Designed and optimized **database structures** (MySQL/PostgreSQL) for faster queries and better data integrity.
- Collaborated directly with clients and managers, translating business requirements into technical solutions.

#### MOTOR AŞIN: Front-end Developer Intern

06/2022 – 07/2022

- Contributed to corporate frontend projects, strengthening teamwork and professional communication skills.
- Gained practical experience in **SQL databases** and enterprise-level IT workflows.

### EDUCATION

---

**Sakarya University** || Sakarya, Turkey

September 2025

*M.Sc. in Information Technologies*

**Istanbul Kultur University** || Istanbul, Turkey

September 2019 – August 2023

*B.Sc. in Mathematics & Computer Science*

## ACHIEVEMENTS / CERTIFICATIONS

---

**Modern Web Programming with Laravel (+30 Hours)**  
**English Level – Upper Intermediate (CEFR B2)**  
**Responsive Web Design**

|| Linux Users Association · Feb 2023  
|| Toptalent.co · May 2022  
|| freeCodeCamp · Feb 2022

## PROJECTS

---

### Cozmopol | 3D Virtual Shopping Mall

- Developed immersive 3D shopping experiences with **React.js**, **Three.js** and scalable APIs with **Node.js** & **MongoDB**.
- Built **real-time communication system** with WebSocket & Socket.IO for multi-user interaction.

### BidToBuy | Vehicle Live Auction & Automated Bidding System

- Designed a **vehicle auction platform** with automated bidding bots using **Laravel**, **MySQL**, **JavaScript**.
- Optimized business processes by automating real-time price quotations for customers.

### Kilsan | Custom B2B e-Commerce Project

- Built a **B2B e-commerce system** for Turkey's largest brick manufacturer using **Laravel**, **Livewire**, **Tailwind**, **Docker**.
- Delivered full-stack solution within strict deadlines, improving digital transformation in the construction sector.

### Orca Trading Bot

- Enabled **futures trading** via Telegram commands and web interface using **Node.js**, **Python**, **PHP/Laravel**.
- Developed a **multi-exchange trading bot** with integrations to Binance, Bybit, and BingX.
- Implemented Artificial Intelligence - **AI-driven trading strategies** using Python to analyze market data and optimize automated decision-making.
